

## WOMEN PHYSICIAN, LLC

### **Regulations and polices for obstetric patients:**

We welcome you to our practice and congratulate you on your pregnancy. And as a new mother- to -be, we urge you to follow our polices to help our physician deliver great care for you.

If you are unable to make appointment, please reschedule within 24 hours from your original scheduled time or call to let us know why you can not make it to your appointment.

Please comply with all the necessary requirements for prenatal care (for example: blood work, ultrasounds, MFM consults, genetic counseling and testing...etc).

If you miss 2 or more consecutive appointments with no reason and no rescheduling at our facility, we will regretfully have the right to discharge you from our OB care due to liability to our practice, we will recommend another facility for you to continue to prenatal care.

We do not give out abnormal results over the phone. We do not give gender results over the phone, if you wish to discuss results with someone other then yourself you will need to submit this request in writing and/or sign a consent form.

Our physician is a generalist; therefore, we do not specialize in high risk pregnancy. If you will need this kind of care, you agree to be transferred to higher level/ high risk clinic for better and safer care.

Please accept our apology in advance for any inconvenience this may cause, however you must comply with our main policies.

If you have any further questions please feel free to ask us anytime, we are all here for you.

**Thank you**
